

# Life-Cycle and Long-Term Support Services

- Extended support and long-term maintenance
- Life-cycle planning tailored to your needs
- Product and component availability ensured

Mercury Computer Systems offers a broad range of enhanced support services to augment your internal capabilities and increase your effectiveness. With long-term maintenance, life-cycle planning, and spares and components management, you can be assured of our full support throughout the life of your product or program.

## Long-Term Maintenance Programs

To ensure the successful support of your Mercury products, we offer long-term maintenance programs. You need not worry about obsolescence or availability of support for Mercury products. Our long-term maintenance programs can include technical support (phone, email, and web), onsite support, and guaranteed availability of any system or component for the life of your product or program, depending upon your needs.

## Full Life-Cycle Support

Mercury provides life-cycle planning programs tailored to your individual needs for:

- Revision management
- Obsolescence planning and legacy product management
- Post-retrofit systems integration and testing
- End-of-life planning, including fixed-price repairs

## Spares and Components Management

Spares procurement and management services ensure product and component availability over the long term and take advantage of solution alternatives. We work with you from early in the product's life cycle to develop specific programs for:

- Spares purchase and inventory
- Component exchange
- Facilities management
- Last-time-buy product and components stocking

## Support that Spans the Full Product Life Cycle

Mercury's comprehensive set of service offerings is designed to support you throughout the full product life cycle. Our highly qualified support staff is fully trained to address your needs from pre-installation through end-of-life. We offer detailed site assessment and preparation for a seamless startup. Our installation and upgrade services minimize your downtime. Network, applications, systems, and third-party integration services ensure that you are operational quickly and efficiently. Customized training is available to enhance your skills and capabilities as needed. Our onsite, web-based, and call center technical support keep your systems running smoothly. Long-term/life-cycle support services ensure continuity and stability over the full life of your programs.

## Our Customers Define Success

“We need excellent, timely and responsive resolution when problems get complex. When things get out into the field and we find problems, Mercury’s field engineers are responsive and capable. We like to have access to onsite support that can deal with our most complex issues.”

*Lead Engineer, Systems Group*

“You call Mercury with a problem, and someone will call and they’ll do whatever it takes to solve it. They pitch in, especially when they come onsite, and really handle the solution.”

*Systems Program Manager*

“Sometimes it can be difficult to solve our problems, but from Mercury we get solid support.”

*Vice President, Systems Engineering*

“Mercury stands behind its products. Mercury always says, ‘We will stick with you until we have the problem solved.’ I work with my customers this way, too. They are good with their delivery projections and good with communications. Their response time and problem resolution have all gone very well for us.”

*Chief Engineer*

“Having points of contact that really know our business and our needs is the key to great customer support, in our opinion. Mercury’s support engineers are stable, solid, around for a long time, dependable, knowledgeable.”

*Senior Systems Engineer*
