

Performance-Based and Integrated Logistics Services

- Improve visibility into processes and costs
- Balance performance, time, and available resources
- Obtain effective, efficient service delivery

Mercury Computer Systems offers a broad range of enhanced support services to augment your internal capabilities and increase your effectiveness. If you require a capabilities-based logistics approach, Mercury can help you meet your customers' requirements. Our performance-based logistics (PBL) services balance performance, time, and available resources for improved visibility into processes and costs. Effective, efficient service delivery means that you win, and your customers win.

Services-Centric Support

Customer needs are evolving from platform-centric to services-centric support. Providers must be highly efficient, multi-disciplined, and capable of managing and measuring complex processes simultaneously.

Mercury can partner with you to provide the services you need. Our highly trained technical support staff understands the PBL model and can manage to it. Because Mercury systems and components are typically long-lived, high-value, and repairable, we have years of experience to draw upon to support your customers' requirements.

We can assist you in developing:

- Performance-based agreements (PBAs)
- Total life cycle support
- Integrated performance packages
- Statements of objectives (SOOs)
- Continuous reliability improvement programs

Support that Spans the Full Product Life Cycle

Mercury's comprehensive set of service offerings is designed to support you throughout the full product life cycle. Our highly qualified support staff is fully trained to address your needs from pre-installation through end-of-life. We offer detailed site assessment and preparation for a seamless startup. Our installation and upgrade services minimize your downtime. Network, applications, systems, and third-party integration services ensure that you are operational quickly and efficiently. Customized training is available to enhance your skills and capabilities as needed. Our onsite, web-based, and call center technical support keep your systems running smoothly. Long-term/life-cycle support services ensure continuity and stability over the full life of your programs.

Our Customers Define Success

“We need excellent, timely and responsive resolution when problems get complex. When things get out into the field and we find problems, Mercury’s field engineers are responsive and capable. We like to have access to onsite support that can deal with our most complex issues.”

Lead Engineer, Systems Group

“You call Mercury with a problem, and someone will call and they’ll do whatever it takes to solve it. They pitch in, especially when they come onsite, and really handle the solution.”

Systems Program Manager

“Sometimes it can be difficult to solve our problems, but from Mercury we get solid support.”

Vice President, Systems Engineering

“Mercury stands behind its products. Mercury always says, ‘We will stick with you until we have the problem solved.’ I work with my customers this way, too. They are good with their delivery projections and good with communications. Their response time and problem resolution have all gone very well for us.”

Chief Engineer

“Having points of contact that really know our business and our needs is the key to great customer support, in our opinion. Mercury’s support engineers are stable, solid, around for a long time, dependable, knowledgeable.”

Senior Systems Engineer
